

SK Series Solar Power Systems

The SK Series Solar Kit is a cutting-edge solution designed for powering Wi-Fi Access Points, Bridges, and Cameras with solar energy. This kit includes everything you need to set up a reliable and sustainable power source for your devices, ensuring uninterrupted connectivity in remote locations. The solar panel captures sunlight efficiently and converts it into electricity, which is stored in the included battery for use around the clock. With easy installation and durable construction, the SK Series Solar Kits are a cost-effective and eco-friendly option for powering your network devices.

Recommendations/Installation

Any location where Solar Panel can be positioned in full sunlight. Spanner and screw driver for pole or wall mounts required.

Specifications:	SK240	SK480
Solar panel rated power	40W	60W
Solar panel Size	530mm x 350mm x 17mm	670mm x 535mm x 25mm
Waterproof	IP66 Outdoor	IP66 Outdoor
Battery type	18650 lithium-ion battery	18650 lithium-ion battery
Battery Voltage Capacity	12V / 20Ah	12V / 40Ah
Nominal voltage	12V Output	12V Output
Controller	MPPT	MPPT
Max Power Output	12V / 4A	12V / 4A
Operating Temperature	-5°F to 150°F (-20°C to 60°C)	-5°F to 150°F (-20°C to 60°C)
