

Times CST-400 Coaxial Cable Preparation Tool for LMR400

CS2400

The Times Microwave Systems CST-400 Cable Preparation Tools is designed for EZI Fit crimp and clamp connectors. This combination tool reduces the need for braid trimming and provides excellent dielectric removal for easy connector termination. With this tool you can accurately strip and prepare LMR400 cable for precise connector attachment when using non-solder type Ezi-Fit Clamp or Crimp connectors. This model includes a built-in deburring tool eliminating the need for a separate tool.

Features/Benefits:

- Even easier termination with two step process to prepare the cable
- Improved performance by eliminating bad connections
- No braid trim required as the tool has two user settings for Crimp and Clamp connectors
- Suitable for use with all LMR-400 non-solder captive pin connectors
- Provides consistently sharp cut of dielectric for best VSWR performance
- Rugged, lightweight construction
- Includes a built-in deburring tool eliminating the need for a separate deburring tool
- Lanyard attachment included
